## Aircare Europe

As winter sets in, heating goes on and windows are shut tight against draughts the odours and dusts arising from nail treatment can quickly become overpowering and potentially hazardous to health.

The Aircare Nail Table provides the perfect solution with its unique 4-way extraction system. Dusts and odours are removed via the lamp, work area, cowl and drawer. The table can be built for a left or right-handed person, and where space is at a premium to be able to accommodate everyone a stylish double table is available.

## MAVALA

Our new ARABESQUE collection features four intense metallic shades to adorn your nails this season, inspired by the ornate and brocade aesthetics showcased on the A/W13 collections.
